

OUR OFFER

Our system has a modular structure. In any case, we recommend the sustainability consulting as a basis for both the sustainability report and rating. As a customer of the Professionals Academy you benefit from special conditions:

+ Progroup covers 50% of the costs for the sustainability consulting.

Because you are a valued partner. This creates joint growth at eye level. For a strong future.

We will be happy to provide you with the price model for support with your sustainability report and rating, as well as package prices, in an individual discussion.

CREATING VALUE FOR GENERATIONS.

Sustainability consulting, report and rating for the packaging industry

Any questions?
We are here to help you.

OUR SUSTAINABILITY CONSULTING WILL PREPARE YOUR COMPANY FOR THE CHALLENGES OF TOMORROW.

We think sustainability “from paper to box” and work with you to develop innovative ideas that stand up to the current focus on sustainability. Together we will develop a long-term sustainability strategy and equip your company with the skills to meet both the (future) legal requirements and the (future) expectations of your customers.

Over the course of 4 months, our highly qualified team of consultants will support you and work with you to develop a comprehensive sustainability strategy. In this process, we will address the individual challenges of your company.

KEY ELEMENTS SUSTAINABILITY CONSULTING

BASICS OF SUSTAINABILITY

- + Determining the status quo of your company
- + Checking the relevance of trends

SUSTAINABILITY GOALS

- + Derivation of strategic sustainability goals
- + Development of a sustainability mission statement for your company

SUSTAINABILITY AGENDA

- + Development of suitable measures and potential courses of action
- + Development of a roadmap for the implementation of your sustainability strategy

PLANNING OF IMPLEMENTATION

- + Development of adjusted governance structures and processes Internal and external communication planning
- + Finalization of individual concepts

You want more? To complement the development of your sustainability strategy and agenda, we support you in creating your sustainability report. In addition, we prepare you for your sustainability rating with renowned rating agencies. We expect the entire program to take approximately 12 months.

AND AFTER THAT?

After a professional sustainability consultation, you will have the tools you need to communicate your successes in the area of sustainability and have your company rated.

We support you with the following topics:

SUSTAINABILITY REPORT

- + We provide you with a tried-and-tested template and content from Progroup: Sustainability “from paper to box”
- + We support you with the content planning based on your sustainability strategy
- + Our partner agency takes care of the graphic design and layout

SUSTAINABILITY RATING

- + Do you want to show how you compare to others in the area of sustainability? We support you in preparing for the rating.

YOUR ADVANTAGES

We think about sustainability “from paper to box”. The majority of your emissions are generated before the corrugated cardboard even arrives at your premises.

Quality:

We specialize in corrugated board packaging manufacturers, have experience in sustainability consulting and can enrich the strategy process with data from Progroup and benchmark values

Time:

Due to the phased start of the three modules the entire program can be completed within 12 months

Power of Cooperation:

We create synergies through the transferability of analyses and benchmark values
